

Mini Grand Prix 2011 - 2012

The Mini Grand Prix is a club competition based on results achieved by members who enter designated UK based external competitions, see the list below. Any member choosing to enter the Grand Prix will have to enter a minimum of 4 images in each external competition; entries can be made in any of digital image sections that are being run in each competition. The top 4 scores for each competition will be averaged and club awards will be given at the end of the season. Entry costs vary depending on how many sections/ images are entered but each competition tend to start from around £6.

At the time of writing most of the clubs organising the competitions have not declared the closing date and the date the results will be announced so only the month the competition is usually run is given above. These dates can be found by either visiting the individual competitions web site or looking on the club web site or forum where they will be updated as they become available.

All the competitions chosen are members of the British Photographic Exhibitions (BPE) and will therefore have the additional advantage of counting towards BPE awards (e.g. BPE1" for 25 acceptances) for every entry that is accepted into an exhibition, more information is available at the BPE web site (www.b-p-e.org.uk).

The full rules for the grand prix are in section 1.7 of the clubs Competition Rules, available from the downloads section of the club web site.
